SUMMARY

A procurement professional who has recently made a switch to Web Development with a desire to use a mix of well-established skills in business management as well as newly developed technical skills for a new career path.

I've recently completed the University of Edinburgh Web Development Bootcamp where I ranked of 1st out of more than 100 students.

EXPERIENCE

HyperionDev London

University of Edinburgh Full Stack Web Development Bootcamp

📅 03/2022 - 07/2023   📍 Location

Throughout this course I learnt the fundamentals of Web development and learnt coding in JavaScript, CSS, HTML as well as using frameworks React and Next.js

- For the front-end part of the course, I learnt to use CSS, React and Bootstrap to create styled UI elements and in the backend, I learnt to use Express and MongoDB to handle user data
- I also learnt to validate and authenticate users making use of JSON Web tokens as well as working with APIs to show data in Apps

Senior Production Buyer

Tevva London

📅 07/2022 - 03/2023   📍 Location

The commercial commodity lead for powertrain, ensuring the business has first to market technology leading in performance, cost and sustainability

- Responsible for the research of new technology and supply chain for Batteries, Motors, E-axles, Power Electronics and Thermal management systems
- Developing a global sourcing strategy that meets the business' aspirations for global expansion
- Negotiating with external stakeholders in regard to supply contracts and MoUs
- Working with internal stakeholders to develop standardised procurement processes, documentation and ways of working. | 3

Commodity Buyer, Direct Purchasing

Alstom

📅 02/2021 - 07/2022   📍 Derby

(Ex-Bombardier) Commodity Buyer, Direct Purchasing The local lead buyer for electrical hardware with targets to improve on contract position and new product development for the regional site

- Regional commodity buyer for Electrical hardware: EWIS, batteries for propulsion and electrical assemblies
- Responsible for contract execution managing relationships with global procurement, presenting to senior management and leading the integration of new parent organisation into the existing business
- Executing sourcing strategies process improvement, new product development
- Completing local contract negotiations and conflict resolution for escalated issues

SKILLS

JavaScript   HTML   CSS

Stakeholder Management

PROJECTS

eCommerce Store

🔗 https://github.com/ianh8899/Hangman

A Full Stack Clothing Store to show products and take payments.

- I made this store with React and Sass for the front end, Strapi for content management and Stripe to take payments.
- See a live preview here. (http://ecommerce2569896.co.uk/)

Quotation Management System

🔗 https://github.com/ianh8899/rfq-app

Full Stack MERN Project

- This is an RFQ app which allows Buyers to manage Requests For Quotations. Making use of MongoDB, Express, React (Next.js) and Node.

Personal Website

🔗 https://github.com/ianh8899/portfolio

My website I built after completing my boot camp.

- I created my personal website using Next.js and Tailwind CSS.
